

Butter, Curds And Cheese Thermometer

Product Images

Short Description

Specifically designed for your dairy-product making, the Butter, Curds, and Cheese Thermometer is a distinct kitchen tool that brings precision and ease to your process. Whether you're creating butter, curdling for cheese, or fermenting quark, the exact measurement this German-made device provides, ensures great results every time.

Description

The Butter, Curds, and Cheese Thermometer offers a easy and practical design. It ensures high accuracy with a 2-point calibration process, critical for perfect butter or cheese curd generation. Handheld and made in Germany, the thermometer showcases a clear temperature scale with markings for easy reading.

Measuring 27cm in height, 17cm in width, and 1.5cm in depth, it's designed to fit comfortably in your hand. The thermometer offers a temperature range of -10 to 110°C, with an accuracy of $\pm 1^\circ\text{C}$, allowing you to handle various dairy products with a single tool.

Supported by a warranty for a year, the Butter, Curds, and Cheese Thermometer signifies the commitment of the makers, TFA Dostmann, towards quality and durability. This product is perfect for those who appreciate precision in preparing dairy products at home, guaranteeing a successful, delicious outcome every time. Be it for your kitchen or as a gift to a culinary enthusiast, this thermometer is an excellent investment.

Technical Specification

- Scale with temperature markings
- High accuracy due to a 2-point calibration
- Made in Germany
