

Bel-Air Wireless Min/Max Thermo-Hygrometer

Product Images

Description

Bel-Air Wireless Min/Max Thermo-Hygrometer

The Bel-Air wireless thermometer station has some excellent features. The unit itself is designed to check ambient room conditions, which is then indicated on the brightly coloured display. The unit will advise if the humidity needs to be increased or decreased, and will also offer ventilation tips, such as open or close the window.

The outdoor temperature and humidity sensor is a quirky clear perspex unit, which is fully weather proof. The sensor should be placed within 100m (open field) of the base station, and will the transmit temperature and humidity readings back in to the house.

The unit also records minimum and maximum temperatures reached, and can be reset manually as required, at the touch of a button.

Temperature Range

- Indoor Range: from -10°C to 60°C
- Outdoor Range: from -40°C to 60°C
- Measure Units: °C and °F

Humidity Range

- Indoor Range: from 20% to 95%
- Outdoor Range: from 1% to 99%
- Measure Units: %

Minimum/Maximum

- Reset: Manual

Comfort Level

- Multi-Coloured Dial Scale

Transmission

- Distance: 100m Open Field
- Type: Wireless

Dimensions

- Display: 95 x D 20 x H 158mm

Battery

- Type: AAA (Not included)
- Life: 12-18 months

Supplied With

- 1 x Bel-Air Base Station
- 1 x 30-3187-IT Temperature and Humidity Sensor

Additional Information

Brand	TFA Dostmann
