Short Description

Venice Wireless Pool/Pond/Water Thermometer With Outdoor Sensor

Description

The Venice wireless pool/pond/water thermometer is designed to read and transmit an accurate pool temperature reading to an internal base unit. The pool/pond/water probe has a 18cm measuring depth, ideal for giving a more accurate temperature on sunny days when the body of the water may be colder.

The Venice has the option of adding seven handy temperature/humidity sensors, which can be located either in or outdoors, and will also transmit its readings back to the base station. The base station itself will supply an internal humidity reading aswell as temperature.

The sensors can be up to 50m (open field) away from the base station, which features a useful radio controlled clock. The base also has a min/max readings feature, which is manually reset, and a dew point measurement.

Temperature Range

- Indoor Range: -0°C to 60°C
- Outdoor Range: -40°C to 60°C
- Water Range: -10°C to 60°C
- Measure Units: °C

Humidity Range

- Indoor Range: from 20% to 95%
- Measure Units: %

Minimum / Maximum

- Reset: Manual

Calibration

- Unit can be calibrated upon request, please call  us for more information

Transmission

- Distance: 50m open field
- Type: Wireless

Time

- Radio controlled
Display: 12 or 24 hour

Dimensions

- Display: H 126 x W 116 x D 24mm

Battery

- Type: 4 x AA battery & 2 x AA (included)
- Life: Approx 12-18 months

Supplied With

- 1 x Indoor Digital Display
- 1 x Water Temperature Transmitter 30-3216-20

Additional Information

Brand	TFA Dostmann
Display On Sensor	Digital
Temperature	yes
Humidity	yes
Dew Point	yes
Readings Date Stamp	no
Colour Screen	no
Base Station Humidity Range	20% to 95%
Auto Switch Off	no
Hold Function	no
HACCP Compliant	no
Probe Type	no
Warranty	1 Year
Calendar	no
Base Station Temperature Range	0°C to +60°C
Waterproof	yes
Readings Time Stamp	no
Probe Temperature	yes
Dual Display	yes
Calibration	Can Be Calibrated
Wireless Pool Sensor Temperature Range	-40°C to +60°C
Wireless Sensor Humidity Range	no
Wireless Sensor Temperature Range	-40°C to +60°C
Min/Max Readings	yes
Moon Phase	no
Backlight	no

Indoor Temperature	yes
Indoor Humidity	yes
Clock	Radio Controlled
Low Battery Indicator	no
Transmission Range	50m Wireless
Transmission Frequency	868 MHz
Temperature Accuracy	+/- 1°C
Measuring Units	°C & %rh
Max Wireless Sensors	7
Humidity Resolution	1%rh
Humidity Accuracy	no
Power	Battery
IP Rating	IP44
Outdoor Temperature	Yes (Sensor Sold Separately)
Remote Sensor	yes
Size : Depth	2.5cm
Comfort Level Indicator	no
PC Connection	no
Touch Screen	no
Min/Max Reset	yes
Dew Point Alarm	no
High/Low Humidity Alarm	no
High/Low Temp Alarm	no
Outdoor Humidity	Yes (Sensor Sold Separately)
Size : Height	12.6cm
Size : Width	11.6cm
Data Storage	Past 24 Hours
